PARTNERS** AVOCATS A LA COUR

I consider that taking the time to know my clients and to understand their businesses is necessary to build long-term relationships and to provide tailor-made solutions. The role of a lawyer is not only to describe the law but to imagine solutions and strategies to allow clients to achieve concrete objectives within the limits of the law."

SELECTED EXPERIENCE

I am advising Luxembourg head office of several worldwide group of companies in relation to their day-to-day legal management and provide, as the case may be, timely answers to their questions, or detailed memorandum on specific issues. I also help clients to set-up adapted corporate governance rules or to draft shareholders' agreements to ensure a long-lasting successful collaboration between shareholders/directors. I am also assisting clients with major transactions such as mergers and acquisitions, reorganizations, recapitalizations, setting-up of stock options plans.

I am also regularly appointed by Luxembourg courts as bankruptcy trustee or judicial liquidator and I assist my clients to acquire assets from insolvent entities, to settle with appointed receivers or to emerge from bankruptcy.

EDUCATION
