"You have to be burning with an idea, or a problem, or a wrong that you want to right. If you're not passionate enough from the start, you'll never stick it out." Steve Jobs, cofounder of Apple Inc. As a child, I would read books for adults, and I did not always understand what the words were saying. I understood enough to know that words were powerful. Law was the natural means by which I could imagine a better world. If you want to be a good lawyer you must be passionate by your activity.
