Bar admission :

Luxembourg, 22 February 2018

SPECIFIC EXPERTISE

- Dispute Resolution
- Banking & Finance litigation
- Corporate & Commercial litigation
- General Corporate & Commercial law advice
- Shareholders disputes

LANGUAGES

French / English

After stumbling upon Schopenhauer infamous book “The Art of Being Right: 38 Ways to Win an Argument”, and loving to challenge people, I realized being a lawyer would provide me the perfect job to combine both. If curiosity killed the cat, at least law practice offers an amazing opportunity to indulge and associate this trait of character with a drive to fight, which appear to be necessary qualities for an efficient litigator.

SELECTED EXPERIENCE

As an attorney at law since 2018, I have specialized in civil and commercial litigation as well as debt recovery. A dab of employment law, criminal law, administrative law and tenancy law complete my area of expertise. Assisting clients to reach their objectives, while listening to their needs is in my view the core of the profession – which I am glad to be passionate about.

EDUCATION

- Master in European Economic and Financial Criminal Law (LL.M.) – University of Luxembourg (Grand-Duchy of Luxembourg)
- Master 1 in Private law – Criminal law & judicial careers – University Bordeaux IV (France)
